

**FIELD COMPOSTABLE RENEWABLE  
TECHNICAL DATASHEET**

**Description**

Insect Barrier Cone with self adhesive, a solution to protect your plants, seedlings, field and garden from hungry caterpillars, invasive insects and rodents. This innovative pest deterrent is designed to safeguard your green investments without the need for additional stakes or complex installations. Material is Biodegradable cupstock. Degrades in compost in 1 Season in most conditions.

**Key Features**

- Effortless Pest Protection, the Cone Insect Barrier acts as a natural guardian for your garden, deterring caterpillars, insects, and rodents without the hassle of installing stakes or frames. Simply place it around your plants, and it goes to work.
- Peppermint-Infused Defense, we've enhanced this cone with the invigorating scent of peppermint, a fragrance that insects and rodents find repulsive. By surrounding your plants with this delightful aroma, you create an uninviting environment for unwanted visitors.
- Seedling Shield, ideal for protecting delicate seedlings, young plants, and garden beds from voracious caterpillars and insect infestations. It gives your greens the breathing space they need to grow strong and healthy.
- Non-Toxic and Eco-Friendly, our Cone Insect Barrier is crafted from eco-friendly materials, making it safe for your garden and the environment. It doesn't rely on harmful chemicals or pesticides.
- Natural Defense, embrace an eco-friendly way to protect your garden without harming the ecosystem. The peppermint-infused barrier naturally repels pests.
- No-Stress Installation, with no need for stakes, frames, or complicated setups, using our Cone Insect Barrier is a breeze. Set it and forget it.
- Versatile Usage, suitable for various plants, from flower beds & vegetable gardens to fields, shrubs, and small trees, ensuring your entire field is pest-free.
- Healthy Growth, our plants can now flourish without the constant threat of caterpillar damage and insect attacks, leading to vibrant, thriving fields and gardens.
- Sustainability, made from sustainable materials, our Cone Insect Barrier aligns with responsible agriculture field and gardening practices.
- Engineered to maintain integrity in wet storage.
- Entirely U.S. materials, innovation and manufactured.

**Applications**

Trunk Caterpillar Guard

Forest Seedling Protection

Field Plant Insect and Wind Shield
